

## **OUR ENVIRONMENTAL POLICY**

As Ark Pres, we have developed an Environmental Policy to protect the natural environment and prevent environmental pollution in the design and manufacture of seat belts, the production and marketing of wire seat frames and compression-tension springs, and in the manufacture of finished products.

1. To conduct our operations in compliance with environmental laws, regulations and other relevant provisions.
2. To ensure the continuous improvement of the Environmental Management System.
3. To continue training activities to enhance our employees' environmental awareness and ensure their ongoing participation.
4. To be environmentally conscious whilst carrying out our operations and to act in accordance with health and safety requirements,
5. To ensure that the Environmental Management System is implemented in accordance with legal requirements and regulations.
6. To ensure the reduction of consumption of all natural resources used during production.
7. Our organisation is aware of the environmental, economic and social impacts of climate change. In this context, we commit to improving energy efficiency and managing risks related to climate change.
